

WHO ARE WE

Zelkova Arboriculture is a company founded on over 40 years of tree care, forestry and land management experience in both contracting and consultancy. All Arboricultural advisors are qualified to a minimum of BSc Degree level.

Marc Evers – Buckland

BSc (hons) For, HND Arbor

Marc undertook his degree placement in the USA and practiced commercial arboriculture for some fifteen years before progressing into the field of Consultancy. Marc also has attained significant experience of Arboricultural practice in several other countries including Italy, Germany & Sweden, and is our main liaison with our European associate companies. Marc is highly specialised in Arboricultural practice and its application not only in the European arena but worldwide, and was himself a recognised arboricultural championship winner.

Paul .G. Rich

BSc For HND Arbor ISA Cert Arb

A veteran of some twenty five years experience, Paul also undertook his degree placement in the USA and practiced both commercial Arboriculture and Silviculture for many years before progressing into the field of Consultancy. Some eight years of Paul's career was in the role of local government officer holding positions in both Planning and Parks and Woodlands, later offering private consultancy services to Local Authorities. Paul has also had considerable experience of allied land based industries, giving a unique diversity to knowledge base of Zelkova. Paul is a specialist in Graphical Information Systems (GIS), GPS integration and development of internationally recognised & used Arboricultural / Silvicultural Software.

ECOLOGY, ENVIRONMENT & EFFICENCY

As a company we believe that all tree care and forestry practice should be founded on a solid scientific basis. Our many years of experience has shown that quality practice's are in almost every case more efficient and cost effective than both outdated tree surgery or destructive forestry practice. We will always utilise practices which are friendly to both the local Environment and Ecology and firmly believe that our clients should not pay a premium for this policy

CONTINUOUS PROFESSIONAL DEVELOPMENT

Both our Consulting Arborists are members of professional bodies which require continual reassessment and development of skills base & learning. This is also our internal policy for all operatives who are always trained to the highest standards.

Either on a corporate, and or professional level we are active members of the following organisations

Consulting Arborist Society

ISA Certified Arborist Programme

ISA Professional Membership

Arboricultural Association

Zelkova
ARBOR CULTURE
CARING FOR TREES AND THE SUSTAINABLE ENVIRONMENT

**ARBORICULTURAL & SILVICULTURAL
SERVICES BROCHURE**

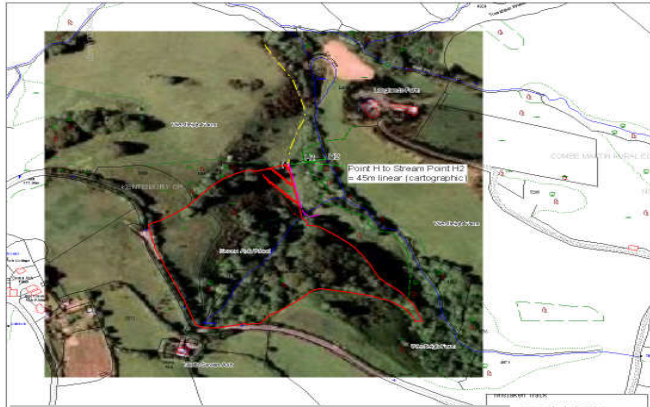

*“SCIENCE BASED ARBOR CULTURE
EFFICIENTLY PROVIDED”*

WHAT DO WE DO ?

Our services encompass all aspects of Tree Care (Arboriculture) and Low Impact Forestry (Silviculture) to current BSI & Industry Standards as a minimum

ARBORICULTURAL & SILVICULTURAL CONSULTANCY

- **Arboricultural Inspection & Reporting**
- **Arboricultural & Woodland Resource Management Plans**
- **Hazard Inspection & Survey**
- **Arboricultural Impact Assessments**
- **Planning Application Service**

We can advise on all aspects of planning with regard to trees, woodlands and ecological tree & woodland management. We will liaise as agents with your local planning authority where and when required, to achieve a mutually acceptable solution to many aspects of trees and planning

ARBORICULTURAL PRACTICE

Our driving principle is to provide a science based approach to Arboriculture, whilst avoiding dated 'tree surgery' practices.

We aim always with our unique level of expertise and efficiency to achieve this whilst maintaining a competitive service for our clients.

- **Fine Pruning & Shaping**
- **Reduction**
- **Technical Removal**
- **Bat Inspection & Survey**

LOW IMPACT FORESTRY (SILVICULTURE)

All silvicultural operations undertaken by Zelkova are pre-planned with our clients to ensure as minimal an impact on the ecology and environment as possible. Our modern range of equipment and techniques have been designed and developed specifically for a diverse range of Low Impact Forestry operations.

- **Continuous Cover Forestry (CCF) Management**
- **Low Impact Extraction & Winching**
- **Sectional Felling Of High Value Timber For Saw Milling**
- **Felling**
- **Forest Fencing**
- **Spraying**

PORTABLE SAW MILLING

For conversion of viable timber Zelkova has a portable mill which can be broken down and utilised to convert timber even on inaccessible or sensitive sites which ordinary equipment cannot reach and the timber would normally be laid to waste.

GENERAL ESTATE MAINTENANCE.

Although we are not an Estate / Grounds Management company, our consultants and operatives have extensive combined experience of all aspects of this industry. We can therefore offer this service to current BSI & Industry Standards as a package on a very competitive basis.

- **Bracken Control**
- **Grass Cutting**
- **Path Maintenance**
- **Fencing**
- **Spraying**
